

Non-formal education in Belarus: some approaches and tendencies of development

2011

Презентация подготовлена Дмитрием Карпиевичем
(председатель правления ОО «Образовательный центр «ПОСТ», журнал «Адукатар»)

Non formal education-

is any organised education not included in the system of formal education.

Mainly fulfilled by commercial and non-commercial organisations.

Main target groups

- Professional communities;
- Retired people;
- Unemployed people;
- Parents;
- Youth and students;
- Activists of local communities;
- Women
- Handicapped people
- HIV infected people

Main forms of educational activities

- Seminars and trainings;
- Workshops, summer schools;
- Study visits and international programs;
- Study courses;
- Study circles (scandinavian method);
- Publishing books and manuals;
- Larps
- University of third age
- Flying university

Why do people participate?

- find those who share same ideas and views
- “widen horizons” and learn smth new (approaches, ideas, tools etc)
- easy level of entrance
- deep inner wish for change
- self-fulfillment
